THE BRITISH COMPUTER SOCIETY WORKSHOP SERIES

Editor: P. HAMMERSLEY

The BCS Workshop Series aims to report developments of an advanced technical standard undertaken by members of The British Computer Society through the Society's study groups and conference organizations. The Series should be essential reading for all whose work or interest involves computing technology and for both undergraduate and postgraduate students. Volumes in this Series will mirror the quality of papers published in the BCS's technical periodical *The Computer Journal* and range widely across topics in computer hardware, software, applications and management.
