

ECMFA, ECOOP and ECSA 2013

co-located during July 1-5, 2013 at Montpellier-France

Three major international conferences in software engineering, Objects, Models and Architectures

<http://www.lirmm.fr/ec-montpellier-2013/>

General Presentation

When the European Conference on Object-Oriented Programming (ECOOP) was created in 1987, object-oriented technologies were a major innovation in software engineering and they became a success story since then. Afterwards, other innovative approaches emerged, namely Model Driven Engineering and Software Architectures, that gave rise to their European Conference series, the European Conference on Modeling Foundations and Applications (ECMFA) and the European Conference on Software Architecture (ECSA). The joint organization of these key conferences provides a unique opportunity to gather practitioners and researchers interested in these fields, and allow them to interact with each other.

The European Conference on Object-Oriented Programming (ECOOP) is the premium international conference covering all areas of object technology and related software development technologies. The 2013 edition will be the 27th of the ECOOP conferences series.

The European Conference on Software Architecture (ECSA) is the premier European conference providing researchers, practitioners, and educators with a platform to present and discuss the most recent, innovative and significant findings and experiences in the field of Software Architecture. The 2013 edition will be the 7th of the ECSA conferences series.

The European Conference on Modelling Foundations and Applications (ECMFA) is dedicated to advancing the state of knowledge and fostering the industrialisation of the Model-Based Engineering approach, also promoted by the OMG as the Model-Driven Architecture (MDA)©. The 2013 edition will be the 9th of the ECMFA conferences series.

For this edition (2013), the three conferences expect to attract about 500 participants from industry and academia.

Sponsorship packages

We are looking for both academic and industrial sponsors for the organization of these three co-located conferences. By sponsoring these conferences, you contribute to the success of three major scientific and industrial events in their respective fields, you position yourself as part of the (major) actors in these fields, you will have the opportunity to advertise your methodologies, products, tools, specificities and success stories of your business and to make the conference audience aware of them, you will have privileged space to meet researchers and industrialists interested in your field. Also, to thank you for your contribution, we offer you many benefits shown in the table below. It shows our sponsor packages : **GOLD**, **SILVER** or **BRONZE**. However, if you want to propose another form of contribution, this is quite possible by contacting : Jean-Paul Rigault (jpr@polytech.unice.fr) and Abdelhak-Djamel Seriai (seriai@lirmm.fr).

Sponsor Package	Benefits
Basic	<ul style="list-style-type: none"> ✓ Display of the logo of the company on the conference website
Bronze Sponsor (over than 1000 euro)	<ul style="list-style-type: none"> ✓ Display of the logo of the company in the conference area, press material and website ✓ Copy of the conference attendee list, subject to the attendees agreement
Silver Sponsor (over than 2000 euro)	<p>Bronze package +</p> <ul style="list-style-type: none"> ✓ 1 complimentary ticket* ✓ Reduced conference fee for own staff (10 percent) ✓ Company can give a technical presentation at the demos and exhibition session
Gold sponsor (over than 4000 euro)	<p>Silver package +</p> <ul style="list-style-type: none"> ✓ 1 extra complimentary ticket* ✓ Reduced conference fee for own staff (20 percent) ✓ Company's material** can be included in delegates bags ✓ A choice of either printing a logo on back of conference staff T-shirts or on delegate bags ✓ The Logo, company hyperlink on the sponsor's page of the conference website as a Gold sponsor
Others kinds of sponsoring	<ul style="list-style-type: none"> ✓ The company can choose to use a 3m x 2m exhibition areas within the conference hall to demonstrate and promote their products/software ✓ The company can financially support students to attend one of the three conferences ✓ Etc. <p style="text-align: right;">For more information, please contact us.</p>

* Valid for Tutorials, Workshops, Conference, Social Event.

** Size restrictions: for more information please contact us.

Location

For the main conferences :

Le Corum - Montpellier
Esplanade Charles de Gaulles
34000 Montpellier
GPS: 43° 36' 49" North; 3° 52' 56" East

Sponsorship procedure

Please send an email to sponsor chairs :

Jean-Paul Rigault (jpr@polytech.unice.fr) and Abdelhak-Djamel Seriai (seriai@lirmm.fr)

Postal address:

Pr Roland Ducournau
Université Montpellier 2
LIRMM
UMR 5506 - CC477
161 rue Ada
34095 Montpellier Cedex 5 - France
